

Welbuk™

The Clinic-First Operating System

Every disconnect is a leak and every leak costs. We bridge the Gap
One Record. One Identity. One Connected Ecosystem

For every phone, every desk and every tablet in the network

Doctors care for Patients, Welbuk Cares for Doctors

The Welbuk Ecosystem

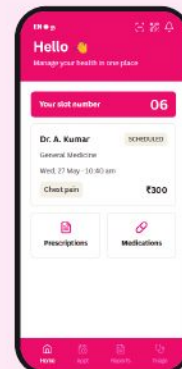

One record. One system. Every device.
Every role. Every time.

WELBUK HEALTH

THE PATIENT'S PHONE

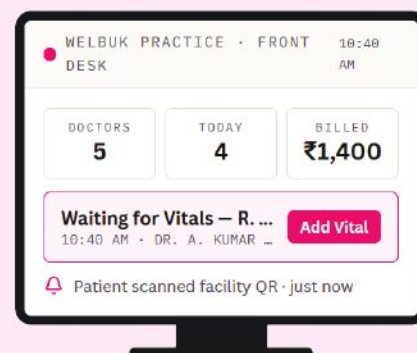

Book appointments, check in by QR, receive prescriptions and reports, and carry a complete care history – all on their phone. No paper. No queue at the desk. No WhatsApp forwards.

WELBUK PRACTICE

THE FRONT DESK

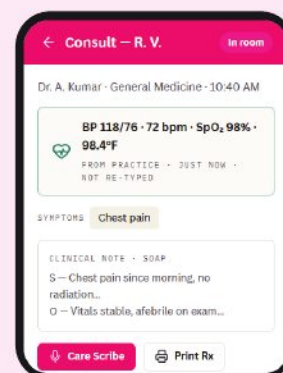

The whole operation on one screen. Appointments, walk-ins, billing, vitals, pharmacy, staff—from a single-chair clinic to a multi-specialty hospital. The day starts connected and ends balanced.

WELBUK CARE

THE DOCTOR'S TABLET

Vitals already synced. History already there. Clinical notes written by AI in the language the room speaks – Tamil, English, the mix. The doctor reviews, signs, and moves to the next patient.

ONE PATIENT. ONE RECORD. ALL THE WAY.

From booking to consultation, prescription to pharmacy, lab order to result – every stakeholder works from the same record. Never a copy of it.

What Makes Welbuk Different?

Every Competitor Has A Feature. Welbuk Has The System.

One record.
The whole way through.
One patient record across every touchpoint. No re-entry. No gaps

Every discount tracked. Every waiver approved.
Discounts, waivers, and CSR—all audit-ready. and ready for tax filing at year end.

The next patient is one tap away.
Manage queues with one tap. The front desk updates instantly.

Enterprise class. Clinic price.
Role-based access, approvals, and audit trails—built in.

Step away, guilt-free.
CareLane + StepIn + Defer. Cover, swap, or reschedule in one tap. Every patient notified. Nothing re-entered.

ABDM-ready. AI-native. WhatsApp-first.
Government-compliant, Care Scribe built in, patient communication on WhatsApp.

Vitals · desk · mobile · tablet
Capture from anywhere, as often as needed. Every reading on the same record, in real time.

You build with us. Not after us.
Share feedback directly with the team that builds Welbuk. - — straight to our work queue.

New staff train themselves.
Every workflow has a built-in guided walkthrough. Press Next, follow along, done. No training required.

IOS. Android. Web.
Patient on any phone. Doctor on a tablet. Front desk on a browser. One system. Every device.

Transforming every clinic into an enterprise-class care facility

Claim Your Seat

Care that follows the doctor,
runs the clinic, and stays with the patient.

*One identity. One record.
